

## Mission

Three Left Feet encourages, fosters and develops positive awareness of dance.

## Mandate

Our performances and teachings play valuable roles in educating the public about dance as a viable art form.

Sharing our love of dance communicates to children the power of movement and music.

## Current Activities

Three Left Feet has travelled throughout Alberta since 1996.

In 2010-2011, we will take part in over thirty weeks of in-school programming. We will bring our performances into schools and family-oriented public spaces.

**Every 'body' can dance!**

## School Programming

Our high-voltage vibe is inspired by funky West African rhythms and characterized by Canadian innovation for a truly world beat feel. Our high-spirited programs leave students breathless.

Even if you have two left feet,  
Three Left Feet believes  
every 'body' can dance.

Our approach to dance complements what teachers already do with their students and also gives them a jumping-off point for starting new material.

Performances bring the excitement of the theatre right into schools.

Residencies are 4-15 days in duration and are high-action, full-participation events.
